

DENTAL PLANS

OralHealth product guide

We understand that employers need to balance benefit cost against the value it brings to their business. A dental plan is an ideal way to encourage employees to access regular dental care. This helps to prevent absences from work to fix dental problems. OralHealth offers a simple solution to dental care with a choice of treatment levels and funding options to suit different needs.

Choice of treatment levels

Five levels to choose from - all with varying levels of reimbursement towards preventative, minor and major treatment. Level 1 is designed for those with access to an NHS dentist. All plans also help make contributions towards unexpected oral health problems including:

- › dental emergencies
- › accidental damage
- › hospital stays for oral surgery
- › oral cancer
- › dental implant benefit on Levels 2, 3, 4 and 5
- › Unlimited:
 - examinations
 - scales & polishes
 - x-rays
 - periodontal treatments

Covered children receive full plan benefits. This includes a contribution towards orthodontics (for under 18s) on Levels 2, 3, 4 and 5.

Simple claims procedure

No need to call for pre-authorisation unless for oral cancer or implant claims.

Claims can be submitted online via the My Claims section of the member portal.

Or they can be submitted by email or post:

1. A qualified dental staff member completes and signs the treatment section of the claim form.
2. The member signs the completed form and returns to Cigna with itemised receipts.

Customer service excellence

Cigna's dedicated dental team delivers customer service excellence and this is demonstrated in the results of our annual dental member survey with overall satisfaction consistently measuring 96% or above.
